

The issue includes:

- #ERSA2023 Call for Special Session Proposals
- Ongoing Calls on ERSA Sections' Agendas
- Members publish
- Vacancies

Dear Members of ERSA, dear Colleagues,

With the end of the year fast approaching, now is the time to have a quick look at our performances of 2022 and look ahead for 2023.

In 2022 ERSA and the European Sections were very happy to organise again, along with online meetings, in-person events. Our agenda made of online and offline activities was very much appreciated, as also shown by our successful mix format ERSA Congress (held in Pecs & Online). We are happy to report that it was a very active and rich year for ERSA Community <https://ersa.org/past-events/>

The opportunities of publications were also numerous and various for our members.

Now is the time to look ahead to 2023, with an already very attractive agenda of opportunities for all.

I would like to point out #ERSA2023 Congress ongoing Call for Special Session. Don't miss this chance to contribute to our landmark event!

With this last edition of our Monthly e-newsletter, I wish you my season's greetings and best wishes for 2023.

André Torre, ERSA President

---

## ERSA-RSAI Members Publish

### **The Routledge Companion to International Housing Markets**

Edited by

**Magnus Andersson, Peter Palm, Helena Bohman**, Malmö University, Sweden

**Béatrice Balivet**, Jean Moulin University Lyon 3, France, **Omokolade Akinsomi**, University of the Witwatersrand, South-Africa.

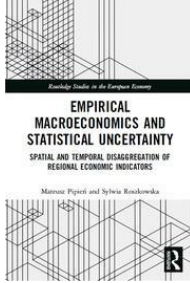

#### About the book

This book brings together scholars with knowledge of different national markets in order to facilitate comparisons for real estate and housing and urban studies scholars and practitioners.

Routledge, 2022

[Read more](#)

**Empirical Macroeconomics and Statistical**

## Uncertainty

### Spatial and Temporal Disaggregation of Regional Economic Indicators

#### Authors:

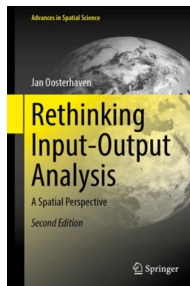

**Mateusz Pipien**, Cracow University of Economics, Poland **Sylwia Roszkowska**, University of Lodz, Poland

#### About the book

- This book addresses one of the most important research activities in empirical macroeconomics.
- It provides a course of advanced but intuitive methods and tools enabling the spatial and temporal disaggregation of basic macroeconomic variables and the assessment of the statistical uncertainty of the outcomes of disaggregation.

Routledge, 2022
