

CALL FOR PAPERS

11th Seminar Jean Paelinck

20-21 April Cartagena (Spain)

<http://eventos.upct.es/go/11JP/>

Dear Colleagues,

On behalf of the Organizing Committee, we are very pleased to invite you to Cartagena (Spain) to participate to the 11th edition of the Seminar of Spatial Econometrics in honor of Professor Jean Paelinck. The workshop will be held in **April 20-21, 2023**.

The conference aims to provide a forum for debate between young and consolidated researchers and it is open to both theoretical and applied papers, which deal explicitly with questions of spatial statistics and econometrics. It will be of special interest those contributions that within the scope of “**Networks and spatial interaction of economic systems at a point level: theory and empirical issues**”. We especially encourage submission by junior researchers.

KEYNOTE SPEAKER:

Jorge Mateu (Department of Mathematics, Universitat Jaume I, Spain)
Title: Spatio-temporal point pattern modelling with applications to infectious diseases and crime

Abstracts submission deadline: March 17, 2023

Full paper or long abstract submission deadline: March 27, 2023

Notification of acceptance of papers: April 1, 2023

Registration: April 7, 2023

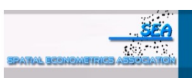

You are invited to submit your paper or abstract to the following email address:

11jp2023@gmail.com

More information concerning the workshop is available at:
